WILLOUGHBY AGAIN IN TOILS

William Henry Willoughby, former resident of Blairmore, was last week sentenced at Fernie to serve two years in the New Westminster penitentiary, being found guilty of forgery. He had but recently emerged from the jail at Lethbridge.

Willoughby has been going under the assumed name of J. W. Wilsifer. His wife and two children reside in Blairmore.

ARTHUR AMOS DIES AT BELLEVUE

The death occurred at Bellevue on Sunday last of Arthur Amos, an old-timer of the district.

Mr. Amos had been a resident of Bellevue for the past twenty-one years, and was a native of Nottingham, England. He had been a sufferer for a number of years and confined to his bed with the malady for nearly ten years. He had reached his fifty-first birthday. He is survived by his widow and four children, Mabel, Eric, Stanley and Edward, with whom sympathy is extended.

Funeral took place on Tuesday, the remains being laid to rest in the Bellevue cemetery.

BLAIRMORE WOMAN SECURES JUDGMENT IN SUPREME COURT

The case of Mrs. H. Gibeau against the Trusts & Guarantee Company, Limited, was disposed of on Monday afternoon last in Supreme Court at Lethbridge.

The action was a claim for \$2000 from the estate of Ethel Williams, deceased, who lived in Blairmore from the year 1906 to about 1926, and was for care, goods, clothing, etc. In consideration of this the deceased said she would recognize her by making a will, in which she would leave her everything she possessed. The deceased, however, died intestate and so, according to the statement of claim, the promise was not implemented.

Judgment was handed down by Mr. Justice Twiddle in favor of Mrs. Gibeau for the sum of \$908.50 and costs.

M. E. Masovich, of Muscovich & Delf, for the plaintiff, D. G. Mackenzie, of Mackenzie, McKay & Vallance, Calgary, for the defendants.

GROUND BROKEN FOR NEW PLANT AT TRAIL

The Consolidated Mining and Smelting company has broken ground and begun the construction of one of the largest fertilizing plants in the world at Trail. Work was started on the excavation about a week ago, and is being rushed along as quickly as possible.

The location of the plant is on the bench overlooking the smelter and adjoining the company farm.

The first buildings to be erected will be a machine shop, warehouses and offices for the construction engineers. The railway company is laying a track into the grounds to better facilitate the unloading of structural steel and other material. —Kimberley Press.

INSTITUTE OF MANUAL TRAINING AND HOME ART

The following classes are offered this winter, and will be conducted if sufficient enroll. An entrance fee of \$1.00 will be charged for all classes. Apply at once to Rev. J. W. Smith.

1. Manual Training, 1st year—General principles of woodwork, coping saw work, puzzle making, use of tools.

2. Manual Training, 2nd year—Fitting and joining simple useful articles, model making.

3. English for new Canadians.

4. Jesse-art craft.

These classes are open to any boy or girl or citizen of Blairmore.

FIRST AID MEETING

A general meeting of men and women interested in First Aid work will be held in the Elks' hall on Sunday afternoon next, October 27th, at 2 o'clock.

A special invitation is extended to ladies to attend this meeting, as it is the intention of the Blairmore Council, St. John Ambulance Association, to also form female classes in First Aid to the injured and in Home Nursing.

Your attendance is urgently solicited as the local Council wish to make this a banner season and hope a sufficient number will attend this meeting to form the classes and have the work commence by the following Sunday.

DETAIL MERCHANTS PASS IMPORTANT RESOLUTION

At a well attended meeting of retail merchants of the towns of Coleman, Frank, Blairmore, Hilercrest, Bellevue and Passburg, held in the Elks' hall last evening, the matter of curtailing credits and urging upon the government the necessity of relieving them of the burden of carrying during the quiet period people who are unable to find employment sufficient to feed and clothe themselves and their families, was given serious consideration.

The meeting was presided over by Mr. F. M. Thompson, while Mr. W. W. Scott acted as secretary.

Upon motion, it was decided to reorganize the 'Crows' Nest Pass Branch of the Retail Merchants Association.

Following a lengthy discussion, the following resolution was unanimously passed:

"RESOLVED—That owing to the period of slack work in the mines in this district, and the resultant large amounts being carried on the books of the members of the association, that we immediately adopt a drastic curtailment of credit, and that if no improvement is shown in conditions in the near future that it will be necessary to put our business on a straight cash basis."

The secretary was instructed to forward copies of this resolution to J. E. Brownlee, premier of Alberta; P. M. Christophers, M.L.A.; Frank Wheatley, president of the Mine Workers Union of Canada, and the secretary of each local union in the district.

HILLCREST FIRST AID CLASS

The examination of the Hillcrest male First Aid Class took place in the community hall, Hillcrest, on Friday evening, October 18th, under auspices of the St. John Ambulance Association, Alberta Provincial Council. The examiners were Dr. R. F. Stewart and M. H. Congdon, Blairmore; supervisor, Ed. D. Royle, superintendent of Mine Rescue Car No. 1, Blairmore.

The following candidates presented themselves for examination: Robert C. Letcher, John Norton, Albert J. Cross, Albert Mark, George Iwasuk, Charles Fournier, Stanley R. Sutherland, Thomas E. Morgan and Henry Instone. Great credit for the success of this class is due to Dr. G. B. Rose, medical lecturer, and Henry Instone, instructor. The class commenced in July with a membership of about thirty, but owing to slack work in the mines of late, quite a few have sought other pastures.

Mr. John Herron and Mrs. Herron, accompanied by their daughter, Mrs. Jamieson, returned on Monday from Calgary, where Mr. Herron a couple of months ago underwent a very critical operation. Friends are delighted to learn that Mr. Herron has made such a splendid recovery. On Tuesday he was able to pay short calls on intimate friends up town.—Pincher Creek Echo.

W. T. Eddy will conduct an auction sale at the farm of Hubert Rouma, near the Todd Creek post office, on Saturday, November 2nd. See bills.

The Singing Fool

By HUBERT DAIL
Copyright, 1928, Warner Bros. Pictures, Inc.

SYNOPSIS

Al Stone, singing waiter at Blackie Joe's New York night club, wins fame as a composer of popular songs. He marries Molly Winton, a ballad singer and makes her famous. Too. Molly and Al have a baby, Junior, whom Al adores. When Junior is about two years old Molly becomes romantically interested in John Perry, Al's best friend. On New Year's Eve Al rushes home from the Club Bongo, where he is part owner and master of ceremonies, to find that Molly has eloped with Perry, taking Junior. Al is staggered by the cruel blow. Next morning he visits Marcus, producer of the revue in which Molly appeared, in search of information.

CHAPTER XVIII

Marcus handed Al a tiny marked paragraph from the theatrical column of a morning paper. It read:

"Miss Molly Winton, headliner in The Merry-Go-Rounders, the most popular Marcus review of the season, has left the cast temporarily for a much-needed rest. Her place will be taken by her understudy, Suzanne Brantner."

"Temporarily?" exclaimed Al. "Well, we just phrased it that way in case she should happen to come back. What's the meaning of all this, Al?"

Al stared hard at Marcus. Should he tell Marcus the truth, or should he cover up? It was apparent that Marcus knew nothing of Molly's whereabouts—and that was what Al had come to find out.

"Nothing," answered the young song-writer. "It's just as she says—she's tired out."

Marcus leaned back in his chair, studying Al's face carefully.

"Boy, you're holding back on this. I can tell from your expression that she's done something to you too. Has she—has she ditched you?"

"I didn't say that."

"I know you didn't, but—your eyes say it. You look as if you hadn't slept for six months."

Al felt himself sagging, but he suddenly stiffened and exclaimed vehemently:

"Listen, Marcus, don't give me any on this. It would make scandal and I don't want publicity. I

want to work it out my own way. But—Molly has left me."

"Phew! I'll be mum—but when, why?"

"Last night—with John Perry. Left a note she took Junior."

Marcus's face softened in sympathy for this stricken man. Here stood his best song-writer, the boy he had discovered, and made famous, the lines of his face sharply etched by pain. Al seemed to have aged overnight.

The producer jumped up, ran around the table, put his arm about Al's shoulders.

"Don't let it throw you! It's a tough break, but you were bound to get it some day from that girl."

"Yes, I know it now!" Al answered bitterly. "But did you see it coming?"

The producer nodded. "Do you remember that night down at Blackie Joe's three years ago when I insisted that if I bought your song I'd have to give you sweetie, Molly, a good review too? I took a long look at Molly and I decided she was a cheater."

"Then, when John Perry came along I saw a few things. But I thought it might blow over—there was no use warning you. You loved her too much."

"I loved her too much, that's true!" admitted Al. "I trusted her completely, and I trusted John Perry, too. I'd like to get that snake alone just once!"

"Again the feeling of rage returned to Al. Marcus's grip tightened on his shoulder.

"Steady, Al. You don't win this battle that way. Let her go—forget her."

"It's easier to say than to do, Marcus. Besides, she's taken my boy, Junior. That's what hurts most."

"I know, I know," Marcus gently led Al toward a chair. "Here, sit down, pull yourself together. And have a shot of Scotch."

The days passed like years, until a week was gone. But still there was no trace of Molly and Junior, and no word from them. Somehow, Al managed to live through those terrible days of futile waiting, but he was unable to continue his song-writing, unable to fill his post as master of ceremonies at the Club Bongo.

At the end of the week he came to a sudden decision. He approached Billy Cline, his business partner at the Bongo, for a conference. They sat in the office one afternoon above the ballroom of the Bongo.

"Billy," Al began doggedly, "I can't go on with this. You know why. I can't appear before that crowd downstairs and go through with my wise-cracking routine. So I might as well get out, bag and baggage."

"Sell out, you mean?" questioned his partner.

"Yes, just that. I want you to buy my interest and I'll disappear. I'm through with Broadway—the whole life."

"Don't say that, Al," countered Billy. "You've got a thousand more songs to you—every one a hit."

"No," Al shook his head. "It's the end of all that sort of thing."

His partner hesitated. "Well, Al, of course I'll buy your share in the club, but the place won't be the same without you."

"I s'pose that's true, Billy, but my heart isn't in it. You've got to feel gay to be gay—that is, consistently. I thought I could work through this thing, but I can't, so—it's curtains."

"Billy Cline studied Al's face just as Marcus had done, trying to think of some way his friend's problem might be solved. But he ended by making a gesture of acquiescence to

Al's proposal. Cline knew in his heart that Al was right about himself—a man can't write songs or carry on in the night club racket unless he can amuse the crowd. And Al's face showed he just couldn't. Cline rose.

"All right, Al. I'll get the books and we'll have an accounting."

As Cline walked away Al picked up a newspaper that an office boy had just left on a nearby chair. He turned it over and—staring at him from the front page—was a large photograph of Molly. The words he read beneath that smiling photo horrified him.

Molly's hard eyes in the newspaper reproduction seemed fixed on Al in cynical and cruel triumph. In a two-column box he read:

"Interviewed at her suite at the Biltmore today, prior to sailing on the 'De France,' Molly Winton, celebrated songstress and late star of 'The Merry-Go-Rounders,' confirmed the rumor that she is contemplating a Paris divorce from her husband, Al Stone, song-writer and Broadway's favorite master of ceremonies."

That one sentence was enough! Al dropped the paper and jumped up just as Billy Cline returned with the Club Bongo account books.

"What's the matter, Al?" cried his partner, for Al's face was ashen.

"Read this," Al snatched up the paper. "Molly's sailing today for Europe, taking Junior. It means I may never see my boy again! For all I know, they're on the high seas now!"

Cline scanned the article rapidly, but Al interrupted him.

"Have they sailed yet?" he cried in tones of anguish. "Have they taken Junior away without a word?" Cline turned quickly to the shipping news, while Al stood glancing over his shoulder. Down the column their eyes travelled to the part marked "Sailings-Today." And then "De France—6 P.M."

Cline looked at his watch. "It's three now, Al. You might be able to stop them."

"You mean legally—the police."

"There's just a chance."

"I won't do that. I have my reasons. But I must see Junior before he leaves—you don't know what he means to me, Billy!"

Al grabbed up the 'phone from Cline's desk and put in a call for the Biltmore.

"I'd like to speak to Mrs. Al Stone."

"Molly was superintending the packing of her bags when the 'phone rang. Junior was playing in the adjoining room or the sister and John Perry, who had just arrived, was reclining in an easy chair near Molly, smoking a cigarette, his hat and stick beside him. The maid put down an armful of Molly's clothes and moved toward the 'phone."

(To Be Continued.)

Minard's Liniment for Warts.

"John, you have been drinking my brandy."

"I have not, sir."

"Are you quite sure?"

"Quite sure. I could not get the cork out."

The American lotus is rapidly becoming extinct.

Was In Bed All Summer

"I have to work in the store and do my own housework, too, and I got nervous and run-down and was in bed nearly all summer. The least noise would make me nervous. I was told to take Lydia E. Pinkham's Vegetable Compound and I have taken seven bottles. I have had no more nervousness and put more color into my face. I am looking after my store and housework and my four children and I am getting along nicely now."

—Mrs. J. Malin, R. R. No. 3, Barns St. East, Hamilton, Ontario, Canada.

A Goliath Among Animals

Monster Unearthed In Africa Twice Length Of Biggest Whale

Lying under the ground in Tanganyika Territory, Africa, are the remains of a very Goliath among animals, a reptile as long as a street.

Part of it has already been uncovered, and the dimensions of the fossil bones suggest that it must be at least twice as big as the Diplodocus Carnegie, the giant found in Wyoming and now in the Carnegie Institute at Pittsburgh.

A cast of this creature is in the Natural History Museum at South Kensington, England, and as that is 80 feet long the newly discovered monster of Tanganyika must be at least 160 feet long, or nearly twice the length of the biggest known whale.

These creatures, though so big and called dinosaurs, were not ferocious carnivores (meat-eating animals). They lived on plants, and, although their bodies were bigger than the biggest elephants, their heads and brains were no bigger than those of a horse. The newly found animal's tail must have been 100 feet long, and its body must have stood between 20 and 30 feet from the ground.

These remains are of what must surely be the largest animal that ever lived.

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

Relieves Asthma At Little Expense. Thousands of dollars have been vainly spent upon remedies for asthma and seldom, if ever, with any relief. Dr. J. D. Kellogg's Asthma Remedy, despite its assurance of benefit, costs so little that it is within reach of all. It is the national remedy for asthma, far removed from the class of doubtful and experimental preparations. Your dealer can supply it.

Rolling Mileage It is calculated that the total mileage now run by cars on British roads is 12,000 million miles a year. The total running mileage of British railways is about 600 million miles a year. The motor mileage is, therefore, about twenty times as great as the mileage of the railways.

Does His Bit "You don't make very good music with that instrument," said the bystander to the man with the bass drum, as the band ceased to play.

"No," admitted the pouter. "I don't. But I drown a heap of bad music."

Many Uses For Butter People Of Tibet Use It In Strange Ways

In Tibet where cows and Yaks abound, no fresh milk is used. It is all churned to make butter. They burn butter in their lamps, they color it and mold it into patterns on cakes that adorn their altars; they eat it and wear it. Soldiers' rations include sheep bladders of butter, travellers carry them on a journey, housewives keep them hanging in the kitchen for years, if possible, for they prize rancid butter as westerners do ripe cheese. In the winter, both men and women smear themselves with butter until they shine and reek with it. They feed themselves with buttered tea—a soup made of boiled tea, strained through a sieve and then churned with butter and thickened with "tamba," a ground barley.

His Best Excuse A gentleman who depends on his wife to make his excuses picked up the telephone the other day and inadvertently received an invitation for a weekend with a family he wouldn't think of visiting. Caught thus, he had to struggle through the situation alone.

"I'm sorry," he said, "but I'm called to Cleveland for the air races and won't be back until next Tuesday."

"Then how about next weekend?" inquired the caller.

"I'm afraid that's out too," he said, and thinking, "put, went on."

"Ah—we've got to go to a funeral a week from Sunday."

In the course of a century, about five cents usually appear that are visible to the naked eye.

Says Monkeys Have Language

Naturalist Believes Baboons Actually Talk To One Another

Among many curious discoveries made by Cherry Kearton, the naturalist, during a recent expedition into Central Africa, is one of particular interest: He has found out that baboons have a language of their own and do actually talk to one another.

"You can often see their lips move as if in question or answer," writes Kearton, "and sometimes they seem to be in this way to carry on quite long conversations."

On one occasion the naturalist was waiting patiently with his camera in a "hide-up" which he had carefully built of stone near a water hole when a large troop of baboons, headed by one old leader, came down to drink.

"Among them was a mother with her baby perched like a little jockey on her back," says Kearton. "She went up to where the old chief was sitting on a stone, exactly like a human being. The mother very gently placed her offspring almost at the old fellow's feet before she stooped to drink. While she was drinking, the old baboon—becoming, apparently, suddenly interested in his task as nursemaid—picked up the baby, examined it and held it on his knees until the mother had finished."

"A few minutes later the mother, taking it from him, said something which I hope was a word of thanks, and then, with her child in her arms, sat down and entered into what could only have been a conversation."

Health cannot be looked for in the child that is subject to worms, because worms destroy health by creating internal disturbances that retard development and cause serious weakness. Miller's Worm Powders expel worms and are so beneficial in their action that the systems of the little sufferers are restored to healthfulness, all the discomforts and dangers of worm infection are removed, and satisfactory growth is assured.

TAG DAYS AND CAMPAIGNS

The public have and will always be asked to support campaigns either by subscription or tag days. All of these are worthy in the extreme and of necessity in our public life. There is one, however, which overshadows all these in our nation's life.

Armistice Day will soon be upon us, which is a day imprinted in the minds of all of us, not as being one of "national" importance but of "world wide" importance. The extent to which this day when it occurred was lauded by people of every nation

ality cannot be measured, and the relief to the pent up sufferings of relatives anxiously concerned about the welfare of their own will never be forgotten.

We owe to Canada's 60,000 men who gave their lives a solemn tribute as Canadians and we should all bring this to attention once per year, November 11th is the day for this observance, when the young nation of Canada will display its remembrance by wearing the Poppy.

Every Canadian or citizen in this glorious land of ours is asked to wear the Poppy which is emblematic of this tribute.

The Canadian Government is employing our disabled men to make these poppies in order to provide a means of employment for them, and the time they spend occupies their attention and helps relieve their suffering for a little while. Each poppy bears the Vetscraft stamp.

The Legion throughout Canada under the leadership of General Sir of Arthur Currie, G.C.M.G., K.C.B., is appealing to all citizens to remember to which this day when it occurred was lauded by people of every nation

Is there a citizen who will refrain

from paying this respect to our dear soldiers? Her Excellency, Lady Willingdon, is patroness in chief for Canada. Other countries are observing this day in this manner—let Canadians to Canadians by showing they will not take second place to any country in the world in this observance.

The Mayor of every town in Alberta, where no branch of the Legion exists, has been made aware of this campaign with a request to form a Central Committee to operate.

Any towns who require poppies for this occasion can get them from the Department by getting in touch with the Provincial Secretary of the Canadian Legion at Calgary.

"THE BROADWAY MELODY"
—THRILL OF LIFETIME

Each moment of this great motion picture reveals new miracles of the Talking Screen! You hear everything from start to finish, but nothing like it ever before! Unbelievable what tragic of drama, spectacle, music, dance have been blended here to create the giant entertainment of our time. "The Broadway Melody" to be shown at Bellevue on October 31st, November 1st and 2nd, ushering in a new era of the living screen and its golden voice, amidst scenes of beauty, luxury and thrill—tells the amazing dramatic story of the Big Parade of the Gay White Way.

Four Calgary athletes have left for the east, where they will report for the hockey season. Paul Thompson, sub-centre, will rejoin Lester Patrick's New York Rangers; while Norman (Dutchy) Gahner and Bill Hutton, defencemen, are enroute to Boston to play for the Bruins, and Ronnie Martin, forward, is off to play for Buffalo of the Canadian League. Reg Mackie is leaving to rejoin the Boston Tigers of the International League. Mackie and Gahner were formerly connected with the Bellevue senior amateurs.

A couple of world auto tourists visited Blairmore on Friday morning last, enroute west. They left Montreal last July and expect the trip will take four years to complete. The expense of the trip is being met through the sale of snaps taken along the way.

Johany Sheppard, formerly of the Coleman senior hockey team, who has been summering in Edmonton, is enroute to rejoin the New York Americans.

BLAIRMORE UNITED CHURCH
Rev. J. W. Smith, B.D., Pastor

Serve the church that the church may serve you.

RE-OPENING SERVICES, Sunday, October 27, Rev. J. W. Melvin, D.D., of Wesley church, Lehighbridge, in charge—

11 a.m.—Young People's Service. Dr. Melvin will give a special address to the young people. The general public are invited to attend this service as guests of the senior school.

2 p.m.—Junior School, as usual. 7:30 p.m.—PUBLIC WORSHIP. Dr. Melvin will preach. The choir will be augmented for the occasion and special music is being arranged.

MONDAY will be a great day. Church Supper at 6 o'clock, served in the new basement. Concert at 8 o'clock, followed by a lecture by Dr. Melvin. This is a real church get-together. The nominal charge of 50c will be made to cover the entire evening.

ST. LUKE'S, BLAIRMORE

Sunday, October 27.—Holy Communion at 11:15 a.m.

Sunday, November 3.—Evensong at 7 p.m.

Thanks are due to those who decorated the church with fruits, etc., for the Harvest Festival, and also the donors to the same.

Do not forget the Bazaar on November the 9th.

—A. D. CURRIE, Incumbent.

Blairmore Lodge of Elks have practically decided that instead of spending hundreds of dollars this year on a Christmas tree, they will devote their attention to distress, of which there will no doubt be quite a number of cases, following such a slack period at the mines.

A German flying boat, the "Do-X," with twelve engines, made an amazing one-hour flight on October 21st, carrying a human load of 169. Her twelve engines can develop a total of 60,000 horsepower, and each engine can be treated individually without affecting its neighbors.

Miss Edith Hayes will leave Parkland shortly for Blairmore, where she will spend a few days with her parents, Mr. and Mrs. R. Hayes. On her return she will be met by Mr. Jack Duttin and the young couple will leave for Calgary where they will be married.—Nanton News.

The marriage ceremony has been somewhat modified of late, and it no longer contains these fatal words: "With all my worldly goods I thee endow." That part of the service has always been unnecessary as the Mrs. endows herself as soon as she gets a chance.—Kingberley Press.

The other day Val dropped into one of our main street cafes and ordered an oyster stew. When the steaming soup was served, Val explored it cautiously and found one lone, single, solitary oyster. Holding it aloft on his fork, he cried loudly and with much eclat: "Lookee, as I live and breathe! A stowaway!"

WOMEN!

If you are suffering from any of the ailments of your sex, KOTAB will relieve them positively by pleasant hip bath treatment without taking nauseating pills or liquids. Gain freedom from the mental and physical depression caused by delayed and painful menstruation, leucorrhoea, and falling of the womb. KOTAB relieves the congestion, tones the nerves and renders circulation normal. For sale at all leading drug and departmental stores. No embarrassing question; just ask for "KOTAB." If your Druggist cannot supply you, write enclosing price \$3.00 for full size package in plain wrapper to FLUID-DOL CO., LIMITED 48 Alkna Bldg., Winnipeg, Man.

It is proposed to build a closed rink at Kimberley, to cost in the neighborhood of \$15,000. Even a little bit of vinegar known its own mother, but it's a wise cork that knows its own pop.

THE NOON HOUR

Finding a lady reading "Twelfth Night," a facetious doctor asked: "When Shakespeare wrote about 'Patience on a Monument,' did he mean doctors' patients?"

"No," said the lady. "You will find them under the monument, not on them."

A clergyman, anxious to introduce some new hymn-books, directed the curate to make the announcement. The curate had also a notice to give concerning the baptism of infants. Accordingly, he announced, "All those who have children they wished baptised please send in their names at once."

The clergyman, who was deaf, immediately rose and said, "And I want to say, for the benefit of those who haven't any, that they may be obtained from me any day between three and four o'clock, the ordinary little ones at a shilling each and the special ones with red backs at half a crown each."

His Error

Finnegan got a job as jester to the king. His duty was to keep his majesty in good humor, and he was making good. One day the king was taking his bath and the door of the bathroom was slightly ajar. As Finnegan passed, in a prankish moment, he reached in, slapped the king on the back and ran away. The king became very indignant and had Finnegan brought to the throne room. He addressed him lustily:

"Finnegan, you have insulted me, and if you have any good reason why I should not have you beheaded, state it now."

"Sure, your majesty," replied Finnegan, "I didn't know it was you in there at all; I thought it was the queen."

An old gentleman, reading the paper, remarked to his wife: "This paper says that for every missionary sent abroad last year this country sent 2,000 bottles of whiskey."

"Bless my heart!" replied the old lady. "Does it say what he does with it all?"

She—If you men would just stop looking at us girls in short skirts we'd soon stop wearing them.

He—Heaven forbid that you should go that far.

"Wuz you very sick wid de flu, Rastus?"

"Wuz Ah sick? Why, man, Ah

looked ebbery mawmin' in de casualty list for mah name."

Street Car Conductor — "Madam, this transfer has expired."

Irate Lady—"Well, you can't expect much else with the cars so poorly ventilated."

During an inspection of an asylum the trustees came upon a party of workmen who were repairing a wall. One of the harmless patients, apparently assisting in the work, was pushing a wheelbarrow along upside down.

"My friend," said a kind-hearted trustee, gently, "you should turn your wheelbarrow over."

"Not on your life," replied the patient. "I turned it over yesterday, and they put bricks in it!"—American Boy.

An exchange states that one of the new immigrants is a Welshman named Lullgan. The name is pronounced Lullgan.

INCREASING THE VALUE OF CANADA'S MUSKRAT RESOURCES

The increased demand for muskrat pelts, the consequent rise in price and the marked decrease in the natural supply are the main reasons for the increasing interest and widespread demand for information as to the economic possibilities of raising this fur-bearer.

To meet this demand and to increase the value of Canada's muskrat resources, the Department of the Interior, Ottawa, through its Natural Resources Intelligence Service, has prepared and issued a publication entitled "The Muskrat, a Canadian Fur Resource." The purpose of the information contained in this booklet is to make possible a wider knowledge of the essentials necessary for raising muskrat under control either in their natural habitat or in pens.

Canada, owing to climatic and other favourable conditions, is particularly adapted for the production of high quality muskrats and possesses as well thousands of acres of marsh and other more or less unproductive areas on which they may be propagated. The development of these areas for the propagation of muskrat would no doubt provide a whole or part time occupation for many persons, and materially increase the production and value of Canada's muskrat resources.

This booklet on the muskrat will be sent free on request to the Natural Resources Intelligence Service, Department of the Interior, Ottawa.

Another Result Of Back Seat Driving

"I'm going to arrest you," announced the traffic cop, "on three charges—speeding, passing a red light, and falling to stop when I first blew my whistle."

The offending motorists paled visibly. But before he could offer any extenuation of his conduct, a lady leaned over from the rear seat. "Don't pay any attention to my husband, officer," she said easily. "He's drunk."—American Legion.

High River Tractor Agent (to farmer): "And, now I'd like you to pay something on that tractor you bought last summer."

Farmer: "Me pay on it? Why, you said that in three weeks it would pay for itself."

A news item tells of a Boston man who slapped his wife as she slept. Men are getting bolder and bolder.

A Perfect Husband

"The man who has acquired the art of perfect husbandship, will automatically yet unknowingly have become a saint in the broadest sense of the word. He will have acquired wisdom, discrimination, patience, moral heroism, and a joyous unselfishness—all the pleasant qualities of a saint, but none of the unpleasant ones, a saint without the odor of sanctity."

—By a Husband

PUBLIC DOESN'T SEE IT

How many people receive, or let alone read, The Alberta Gazette in this province. It is an official publication with a very limited circulation and that confined to inner circles and a few legal offices. Not many, yet the government in the past few years have been content to advertise important sales in that publication and let it go at that. It's a poor business

policy and not fair to the newspaper publishers or to the average citizen. Sale of land for taxes, sale of impounded animals, etc., should be advertised in the local newspaper published nearest to the place of sale. —High River Times.

"Yes, the dentist had to take out two teeth instead of one."

"Why?"

"He couldn't give me change."

THE PASS FIFTEEN YEARS AGO

(The Blaimore Enterprise, 1914)

March 12—Bentley C. Simmons, of Macleod, made application for the position of police chief at Blaimore.

At the regular meeting of the town council on Monday night, a communication was read from a Quebec city firm, asking for information regarding the possibilities for a machine shop being established in Blaimore. The council instructed the secretary to reply, strongly urging the company to establish a plant here.

Alan Moore, former manager of the Frank Line Company, died at Calgary on Tuesday. But recently, he married a young lady from Winnipeg.

Samuel Stokes, brother of Fred Stokes, died at Coleman on Wednesday afternoon.

All the employees of the Frank Coal Company are to receive their back wages on Saturday, March 14.

Hugh Cameron, of Burnis, has invested in an automobile.

Born, on Monday morning, to Mr. and Mrs. Michael Rose, a son.

The Tom Cyr thousand-foot-an-hour service will soon be in operation between Coleman and Blaimore.

Joe MacDougall is now throwing his melodies over the Cosmopolitan hotel bar. He states that weeks will be required to entirely convince.

Messrs. Archibald McLeod, William Amasa Beebe, Henry Matheson, Raoul Green, Donald Alexander Sinclair, Emilie Trono and Peter Patterson, Blaimore; James William Ashdown, Walter James Fisher, William J. McGowan and Evan Morgan, Frank; Arthur Wellesley Hawes and Norman M. Morrison, Beaver Mines; John Thomas Griffiths, Lille; William J. Cole, Bellevue; John Norman Rowell, Passburg; John Taylor, Hillcrest; Joseph Cyrus Chester, Burnis; and Oliver Johnstone, Lundbreck, are among the recent appointments as commissioners for taking affidavits.

Born at Bellevue, to Mr. and Mrs. G. W. Goodwin, on March 10th, a son.

Bob Power has accepted a position as mechanic at Bellevue mine.

March 20—The town of Blaimore has been served with a writ on behalf of the deposed chief of police, claiming \$1030.28 special damages for wages up to and including December 31, 1914; \$5000 general damages; costs of action and such further and other relief as the court may direct.

Mr. H. H. Roberts, of Coleman, has been retained by the complainant. He will have as associates Messrs. McDonald, McKenzie & Co., of Macleod.

Mr. and Mrs. William McCulloch, of Beaver Mines, celebrated their golden wedding anniversary on Friday night last.

Noble McDonald has accepted the position of driver boss at Bellevue mine.

W. P. Williams, who is to be the new mine superintendent at Bellevue, moved from Blaimore this week.

This month, 251 pupils are enrolled at the Blaimore school. The teachers are: Miss I. Munro, Miss M. E. Moir, Miss C. I. Williams, Miss L. Perkins, Miss K. B. Darrach, Miss E. M. Fulton and Mr. J. W. Verge, principal.

Born, at Frank, on March 7, to Mr. and Mrs. Jean Fernau, a daughter.

The mock parliament held in the church at Frank on Friday night last proved very interesting. Premier Borden being absent, Hon. E. P. Baker, director of education at Frank, acted as premier. Hons. Ed. Donkin and Arthur Farmer were movers of a bill providing \$35,000,000 towards the building of three dreadnoughts for the British fleet. Hons. W. J. McGowan and W. Simpson, of the opposition, opposed the motion. Unfortunately for Canada, the house adjourned before a vote was taken, so that her naval policy still hangs in the balance.

Local and General Items

The annual meeting of District No. 6, of the Independent Order of Oddfellows will take place in the Bellevue hall on Monday night next.

The worst wind storm in twenty years swept the Great Lakes yesterday, resulting in quite a number of wrecks and considerable loss of life.

As the night classes in Mining will start in the near future, all those intending to take up this work should hand their names in to M. H. Congdon at once.

Bill—"Here's an article in which it is stated that every third child born is a Chinese."

Bill—"Heavens, what a blessing we have only two."

SALE OF HOME COOKING, under auspices of Order of Eastern Star, will be held in Scott's Grocery on Saturday afternoon, November 2, from 3 to 6 o'clock. [n24-31]

Ed. D. Royle Esq., superintendent of Mine Rescue Car No. 1, Blaimore, has been appointed an inspector of the Old Age Pensions, Department of Alberta, for this district.

Val entered hospital, and the doctor told him to take a pickle just before going to bed, if he could keep it on his stomach. The next day he told the doctor it rolled off when he turned over.

Joseph Tracz was found guilty of attempted carnal knowledge by the supreme court at Macleod, and was sentenced on Tuesday to serve one month in Lethbridge jail. Tracz was a resident of Blaimore.

The first moose seen in this region for a long while was found dead between the jaws of one of the huge gophers on Count Rinaldi's T-Bone Ranch, north of Frank. The gopher was still alive, and it became necessary to have Doc Lillie pull three teeth to extricate the moose.

The Blaimore Players have been busy for the past month, engaged in preparation of "The Rosary," their new offering to local theatregoers, and will have this elaborate production ready to stage in the near future, the proceeds as in the past to be devoted to charitable channels. Watch for dates.

The biggest piece of bally rat that has ever appeared in print is contained in the October 17th issue of the Truro Weekly News under the caption "Government Control in Alberta," over the signature of R. B. Layton, of Lacombe. It is a pity that such matter should be given space in public print. Conditions as related, do not exist, at least as far as southern Alberta is concerned.

Rev. W. H. Irving, of Taber, is testing out the use of lantern slides throwing hymns on the rear wall of the United church at evening services. A trial was made at the service a week ago, and on Sunday evening last all hymns were from lantern slides, with lights turned off in the edifice. The pastor has asked for favorite hymns to be listed by anyone, and placed in an envelope with 25 cents as cost of slide for each, so that the slides may be obtained. The innovation has received much favor.

NOTICE TO CREDITORS AND CLAIMANTS

IN THE ESTATE OF WILLIAM FAIRLEY, late of the Hamlet of Hillcrest, miner, deceased.

NOTICE is hereby given that all persons having claims on the estate of the said William Fairley who died on the 14th day of August, 1929, are required to file with the undersigned Administrator of his Estate by the 24th day of November, 1929, a full statement duly verified, of their claims and any securities held by them; and that after that date the Administrator will distribute the assets of the deceased among the parties entitled thereto, having regard only to the claims of which notice has been so filed or brought to its knowledge.

Dated this 24th day of October, 1929.

COWLEY HAPPENINGS

Born, to Mr. and Mrs. Harold Cleland, at Lethbridge, a son.

The appearance of the Catholic church is much improved by a new coat of white paint.

We regret to say that Miss Doris McEwen has been under the doctor's care for a few days.

The Women's Auxiliary is making arrangements to stage a concert early in November. They are also preparing for a bazaar.

After an extended visit to her old home in Ireland, Mrs. F. Doyle has returned, accompanied by her two children, Peggie and Tony.

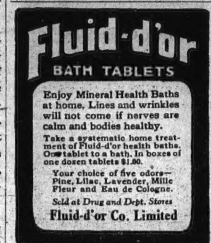

The Cowley juniors played the Maple Leaf juniors in a game of baseball at Maple Leaf on Saturday afternoon. The score was 12 to 22 in Cowley's favor.

A number of local citizens attended the lecture on "Birds" by Jack Miner, the friend of the birds and naturalist, in the Pincher Creek opera house on Sunday, the 13th, and reported the lecture extra good.

On Thursday morning last, four stacks of wheat were destroyed by fire during threshing on the farm of George Dwyer, near Cowley. While setting the engine, the stacks caught fire from the exhaust pipe and was not noticed in time to check the conflagration. Around eight hundred dollars represent the loss.

On Wednesday a pleasant evening was spent at a whist drive, held at the home of Mr. and Mrs. Wilfred Fortier. There were thirteen tables at play. The prizes were won as follows: ladies' first, Mrs. Harry Gunn; second, Mrs. J. Diamond; gents' first, Mr. Black; second, Jimmy Smith. After refreshments were served, the crowd was entertained for a time by Charles Ruby, a magician, who by slight of hand played many a magic trick, which kept the crowd in wonder and delight. Around twenty-seven dollars was realized, which will be added to the Roman Catholic church fund here.

Mrs. S. G. Bannan and son Bobby returned home last week end.

3 times as many CHEVROLET SIXES Sold this year as any other six at any price in any year!

NO other six-cylinder car has ever earned, in any year, one-third the public acceptance . . . one-third the volume of sales . . . which have been bestowed upon Chevrolet Six during the nine months since its introduction.

This tremendous public acceptance is due to three outstanding facts. To the fact that Chevrolet offered, for the first time in history, a six at the price of a four . . . To the superb standard of quality in Chevrolet's design, material and workmanship. And to the new, greater performance abilities that Chevrolet Six provided. Chevrolet Six was four years old in experiment, in research, in testing, in proving . . . before the first Chevrolet Six was placed in the hands of its owner. And that owner . . . like the million and a quarter owners who followed his example . . . SOLD HIMSELF on the Chevrolet he bought . . . on the road, behind the wheel. Why not let us place a Chevrolet Six at your disposal . . . and form your own opinion of its value. Ask about the GMAC Deferred Payment Plan C-10-12-13 PRODUCT OF GENERAL MOTORS OF CANADA, LIMITED

The Average Man and the League

With the closing of the tenth assembly of the League of Nations it is well for those, both in the cities and towns, and the country districts, to get some idea of what the League means to the average citizen.

Immersed in our own affairs and the daily complexities and worries of life, it is hard for the man in the street, or the man in the field to realize what the League means to him. All of us are somewhat hazy about world politics, especially in these days when indifferent crops and business complications make us apt to concentrate on our own immediate affairs. Occasionally we hear high sounding phrases glorifying the accomplishments of the League; at other times the sneers of cynics who advise us to go about our business and take no stock in an agency which can never have any beneficial or practical effect on our lives.

Yet the League and what is done at Geneva are of tremendous concern to all of us. A well known Canadian writer has said: "The League of Nations is not the infatigable and mighty thing described in superfluous rhetoric by certain orators, the nations do not tremble with fear at its frown, it has disappointed romantic visionaries, and it does a number of things to which little attention is paid. Yet despite all of this, and notwithstanding some failures, the League has more than justified itself. In ten years it has prevented ten wars and become an effective central agency for the consideration of crises and the employment of common sense arbitration in great and small disputes."

Some people have thought that the League ought to be able to almost automatically put an end to ill-feeling between two South American republics, or prevent Arabs slaughtering Jews in Palestine, in the twinkling of an eye. Such action is almost beyond the power of any agency devised by man. Hate, born of jealousy, avarice, racial and religious antipathy may blaze into wholesale murder at any moment and justice and common sense are powerless for the moment. But such an agency as the League has time and again proved that once the first outbreak is spent, it can prevent the trouble spreading and restore peace and sanity by conciliation, and if necessary, the invoking of economic and armed pressure.

The League of Nations, in short, has won the respect of the world, not only as an agency that can prevent war, but as a necessity that has grown up with the complexity and interdependence of modern international life.

Canada, like the other nations, and the citizens of Canada, in town and country, must stand foursquare behind its efforts if our children and our children's children are to be delivered from those horrors which took the flower of our youth, and made the world a nightmare of strife.

Canada has, up to the present, taken a worthy place in the councils of the League. Other nations have recognized the value of the Canadian contribution, realizing that to a greater extent, perhaps, than most Old World nations, Canada's position is an unselfish one, the outcome of a sincere desire to promote world peace in the interests of all, and not chiefly for the purpose of promoting Canadian security or advancing purely Canadian interests.

Canada's future contribution can only be measured by the degree of interest manifested by its citizenship and the support extended by the Canadian people to their Government in all efforts put forth to strengthen the League and enlarge the scope of its humanitarian and peace promoting programmes.

London's Oldest Bank

London's oldest bank is the Hoare's, the age of which cannot be certainly stated; but there is in existence a receipt dated 1833 for money deposited there in that year with Lawrence Hoare, who was in business as a goldsmith.

Meat Consumers Protected

The beef branding and grading service directed by the Dominion Department of Agriculture went into effect throughout Canada, September 23rd. The object is to protect the consumer insofar as the quality of the meat is concerned.

Needless Pain!

Some folks take pain for granted.

They let a cold "run its course."

They wait for their headaches to "wear off."

If suffering from neuralgia or from neuritis, they rely on feeling better in the morning.

Meantime, they suffer unnecessary pain. Unnecessary, because there is an antidote. Aspirin tablets always offer immediate relief from various aches and pains. Aspirin is safe. Always the same. All drug stores with complete directions.

Save yourself a lot of pain and discomfort through the many proven uses of Aspirin. Aspirin is safe. Always the same. All drug stores with complete directions.

Alberta As Oil Producer

Production Now Greater Than That Of Montana, New Mexico and Colorado

Alberta is now producing more oil than the states of Colorado, New Mexico and Montana combined, according to a compilation made by F. J. S. Sur, Calgary geologist. He said: "It may be interesting to the oil fraternity of Canada to know that although Alberta is a body in the ranks of the oil producing regions, it is producing now from its Turner Valley field more oil in barrels than the combined output of Montana, New Mexico and Colorado; and when the figures are computed into dollars the value of Alberta's production is seen to be more than twice that of the three states in question."

A STOMACH RESTORER

Good Advice From One Who Had Suffered Much

Discomfort after eating, gas pains in the intestinal tract, pains around the heart, sour rising in the throat called heartburn, are common symptoms of dyspepsia. It is a condition often neglected until it has done permanent harm, yet the treatment is simple. The great contributing cause to this trouble is thin blood. Good blood and plenty of it is required by the stomach to function properly. If the blood is thin the stomach becomes sluggish, food lies undigested, gas forms causing pains, often around the heart. Instead of getting nourishment from the blood the system gets poison. The proper treatment is to enrich the blood, and there is no other medicine can do this as promptly or as effectively as Dr. Williams' Pink Pills. The pills contain iron, red blood, which reaches every organ and nerve in the body and thus restores indigestion and dyspepsia, but also all other troubles having their origin in weak, watery blood.

The splendid results following the use of Dr. Williams' Pink Pills is shown by the case of Mrs. Lucy A. Cushing, a former resident of Kemps, N.S., but now living with her son at West Bethel, Me. Mrs. Cushing says: "I have no hesitation in strongly recommending Dr. Williams' Pink Pills. For years I was a great sufferer from indigestion. Always after eating I suffered from pains in my stomach and other distressing symptoms that accompany this ailment. I tried different doctors while residing at my old home and always West Bethel, but without getting relief. I was advised by a friend to try Dr. Williams' Pink Pills. I did so and I must say that I am feeling very grateful ever since to the good friend who gave me the advice. I was completely restored to good health by the pills helping me and by the time I had taken nine or ten boxes I was completely restored to good health. Though I am now in my 76th year I am feeling as well and smart as I did at 35, and am enjoying life once more."

You can get these pills through any dealer in medicine, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

High Quality Seed

Inspection Shows Ample Supply To Meet Requirements

G. M. Stewart, head of the Dominion seed branch at Calgary, states that the 1929 inspection of standing fields of grain for members of the Canadian Seed Growers' Association shows it can be reasonably expected that there will be an ample supply of seed of high quality to meet requirements for next year. Yields seem to be somewhat higher than had been generally reported. There were nine inspectors out and 500 fields viewed, including many in the Peace River country.

Deposits Are Important

British and American Capital Interested in Manitoba Tin

"British and American capital is definitely interested in the possibilities of tin in Manitoba," according to the Free Press Evening Bulletin. "Tin ore has been found in many places, and work now in progress in two or three camps will go far towards proving whether or not it is to be found in commercial quantities. But whatever the outcome, both British and American capitalists intend to be strongly represented, because of the supreme importance of such deposits."

Receives New Appointment

Dr. Seymour Hadwen, research of animal diseases at the University of Saskatchewan, has been appointed director of veterinary science for the Ontario Research Foundation.

No need to suffer with corns, or to run the risk of paring them, when they surely and painlessly with Holloway's Corn Remover.

William Baker, mail carrier at Forest, Ohio, on special occasions, wears his wedding shoes. The shoes are 44 years old.

For Sprains—Use Minard's Liniment.

Ventured Into Northland

Three American Women Made Interesting Trip This Summer

Three women in a boat, not to mention the guide, made a three weeks' journey down the Peace River this summer to fulfill the adventurous dreams of three American girls. For the far northwest of Canada has an allure not alone for the sturdy settlers who farm its broad stretches but is as winsome in its appeal to the modern explorer.

Meeting at Vancouver, Dr. Jane Lightner, a doctor of philosophy, from the University of Minnesota, Dr. Lydia Lightner, her sister, a physician from Philadelphia, and Miss Lillian Larson, a physical training instructor from Casper, Wyoming, took the boat to Prince Rupert, the train to Prince George and from there their adventures began.

Judge Robertson of Prince Rupert, assisted the party of women to make the final arrangements. He is an old-timer of the district and knows what is needed on such a trip. Here they had their own boat made with a small motor attached with which they were to make the trip.

From Prince Rupert, the three women made the trip to Summit Lake by truck through the beautiful country of northern British Columbia. Boating for days up the lakes and rivers until the Peace River itself was reached was a delightful experience, Miss Larson said.

At Fort Macleod an Indian Chief opened his log house to them, and inviting the neighborhood to a powwow, they danced until the small hours of the next morning. The party camped every night along the river while their days were filled with fishing.

Every foot or inhabited place they came to was a signal for a dance which began early and lasted late.

Open Kindergarten

For Japanese Children

School Has Been Inaugurated At Kobe By Canadian

The first kindergarten for children of foreign residents of Kobe has been opened by the Canadian Academy in that city. The kindergarten stands on premises offered to the academy by the city of Montreal. It is directed by Miss Winifred Taylor, of London, Ontario, who has specialized in kindergarten work and who recently arrived in Japan, is in charge of this new department of Canadian educational activities in this country. Mrs. A. J. Kentwell will assist her.

The initial enrolment of the kindergarten is 26 children, representing nine nationalities, including besides Canadian, Japanese, British, United States, Danish, Swiss, German, Russian and Indian nationalities.

H. F. Woodworth, chairman of the board of the Canadian Academy, stated that with the opening of this department for the little children, the academy now has a complete course of educating for a school of its grade, that is, from infancy up to entrance at a university.

The new department, Mr. Woodworth continued, is the result of a good deal of planning by the faculty, the idea having been conceived some years ago, but for various reasons it has been unable to carry it into practice until now.

It was pointed out that the kindergarten, open as it is to all nationalities, has an important mission in such a cosmopolitan community as that of Kobe, as it can render great service in stimulating international mindedness through the children.

Persian Balm Preserves and Enhances Women's Natural Beauty

Persian Balm preserves and enhances women's natural beauty. For sheer feminine loveliness it is unrivalled. Tones and rejuvenates the skin, and makes it exquisite in texture. Delightful to use. Smooth and velvety, it imparts a youthful charm to every complexion. Indispensable to all dainty women. Especially recommended for delicate, soft and white. Delicately fragrant. Preserves and enhances the loveliest complexions.

England Sends Trees To China

To Be Planted Around Mausoleum Of Sun Yat-Sen

Representative trees, an oak sapling and a young birch tree are to be sent from Kew Gardens, London, England, to be planted in the grounds surrounding the mausoleum of the Chinese statesman, Sun Yat-sen at Nanking. Reports from the Kew states that the trees in the mausoleum of the first Chinese president and its surroundings are completed, they will form one of the world's most beautiful spectacles.

Minard's Liniment For Neuritis

Young people aren't as quiet as the young people of olden days used to be, but neither are the old people.

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been overstimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and harmless.

Advertise Your Town

Signs Showing Name Would Be Appreciated By Touring Visitors

In this vacation season automobile tourists must be impressed with the difficulty of knowing what town or village they are approaching, often when within its outer limits, because of the absence of a sign giving the town name, says the Boston Transcript. It is true that rural post offices are obliged to bear the town name, but unless some enterprising band of trade takes the matter in hand, the information regarding the place is kept secret.

This is poor enterprise, and worse advertising. Proper announcement of the town or city soon to be reached is information which the traveler often craves, and is always of interest, even though travelling at a speed makes sight of the attractions necessarily brief.

An Oil Of Merit.—Dr. Thomas' Electric Oil is not a jumble of medicinal substances thrown together and pushed by advertising, but the result of the careful investigation of the healing qualities of certain oils as applied to the human body. It is a rare combination and it won and kept public favor from the first. A trial of it will carry conviction to any who doubt its power to repair and heal.

Canadian Wheat For India

A shipment of Canadian wheat consigned from Montreal to India, is believed to establish a new record in Canadian wheat exports. Conditions in India called for outside purchases and Canada, as the foremost wheat exporting country in the world, received the order.

It has remained the standard with physicians in the 60 years since its invention, valued at \$144. It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 60 years in correcting excess acids. Each bottle contains full directions—any drugstore.

The Industrial West

Growing Importance Of Manufacture Is Shown By Recent Figures

"Western Canada is no longer merely a wheat and cattle country," says the Winnipeg Board of Trade News Bulletin. "While it is the greatest factor in the world's wheat market, the importance of its manufacture is also steadily increasing. A recent return shows that there are in the three provinces of Manitoba, Saskatchewan and Alberta, 2,350 manufacturing concerns with a capital investment of over \$270,000,000. Manitoba leads with 859 industrial establishments. Alberta is second, with 775, and Saskatchewan third with 721."

Many mothers can testify to the virtue of Mother Graves' Worm Exterminator, because they know from experience how useful it is.

A Pertinent Question

Canada last year produced 2,414,303 tons of newspaper, valued at \$144,146,632. Pulp and paper is now the Dominion's chief manufacturing industry. But what are Canada and the United States doing to anticipate forest conditions 20 years hence?

The honest gardener confines his operations to trees and shrubs.

Napoleon Bonaparte was about five feet, three inches in height.

6 Suggestions

Make Your Farm More Comfortable, More Livable and More Profitable with These Simple Spare-time Improvements

If you have any time on your hands here are six suggestions which will make an amazing difference in the attractiveness and efficiency of your farm.

Third—Line your garage with Gyproc. Gyproc will make it fire-proof, cold resistant and a safer, more substantial house for your car.

Fourth—Gyproc your poultry house. Your flock will have better health, and year-long protection from fire, cold, heat and vermin.

Fifth—Line your grain bins, barns, stables and other buildings with Gyproc. By doing so you will make them more valuable, fire-safe, cold resistant and 50 per cent. more healthful for your stock to live in.

Sixth—Look about for cracked, warped, or sagging walls, partitions and ceilings and repair with Gyproc. Such repairs are quick and inexpensive to make because Gyproc saws, nails and costs so easily—saving time and labor.

First—Buy a supply of Gyproc

Fireproof Wallboard. Then erect Gyproc partitions in your attic, changing the waste space into an additional room or two. Imagine how much more comfortable the family will be with the attic converted into a clean, inviting third story.

Second—Renovate the lower rooms by nailing Gyproc right over cracked and faded walls. You can decorate the flat, smooth Gyproc surfaces with Alabaster, paint or any other finish. And what a difference it will make to your home.

BRINGS MESSAGE OF PEACE TO THE DOMINION

Ottawa.—As to the capital of the United States a few short days ago.

Hon. Ramsey MacDonald, prime minister of Great Britain, brought to the capital of Canada his ringing message of peace. But he coupled with the word "peace" the words "national honor." Canada, Great Britain, those other nations which composed the British Commonwealth, must not forget that their sacred honor was involved in the crusade for peace. They must remember that fundamental things that were sacrificed to a part of peace.

Leaning across the flower-strewn banquet table in the parliament buildings, the home of Canada's legislators, the voice of the prime minister of Great Britain sank to earnestness as he emphasized his words.

"You sent your own prime minister across the ocean to sign a pact of peace," he said. "His name attached to that document is your name. And you have declared that war has been banished from your national policy. Is his signature to be a mere scrawl of ink upon a perishable document? The signatures of Canada, of Great Britain, of Australia and other dominions must now become part and parcel of their national honor."

That was the position, and he felt that the British Empire was prepared to perform accordingly in order to ensure that national honor remained unscathed to the end.

The gathering to which British Labor premier spoke was one of the most distinguished that he has ever faced in his tour on the continent of America. Round the white horseshoe which was the banquet table, were grouped the prime minister of Canada, the leader of the Conservative opposition, members of the Dominion cabinet, members of the privy council from the four corners of the Dominion, and the highest officers of the Canadian judiciary.

There were 132 persons present. According to custom, when the government gives a luncheon to the governor-general, who as representative of the king would outrank all others present, and Her Excellency, do not attend.

That the words of the speaker, whether grave or gay, found ready response in the minds of those present was indicated by the constant ripple of applause which ran round the table. That his mission had the support of the leaders of the Canadian people was amply testified to by the speeches of the prime minister of Canada, Rt. Hon. W. L. Mackenzie King, and Hon. R. B. Bennett, leader of the opposition.

The honor in which Mr. MacDonald is held was indicated by Mr. King when he announced that the cabinet had passed an order-in-council conferring the rank of a member of the privy council on Canada upon the distinguished guest.

All that Great Britain was attempting to do at present was to fulfill national honor, said Mr. MacDonald. The great crisis in the past had been that of men and women had spoken righteously, but worldly-wise individuals had always refused to practice it. Now the time had come for a change.

"The great problem we have to face is the problem of transition time," asserted the Labor leader. The period between so-called military security and the security of peace must be gone through. Here it was that the faintest one of the world might falter, might need the help of their stronger brothers.

"We have to lead the world gently across its difficulties," said the Premier. "And the crossing must be made as happy and confident as possible until we come smiling over to where real peace and security may be enjoyed."

Daily Air Mail Service

St. Paul, Minn.—Daily service over an air route between Winnipeg and St. Paul—instead of every other day—is announced with the statement that the Schlee-Brock Aircraft interests have acquired the Canadian-American Air Lines. Service between the Twin Cities and Port Arthur is to be inaugurated as soon as a field at the head of the lakes is prepared.

More Buildings Needed

Saskatoon.—In order to keep pace with the growth of the University of Saskatchewan, more buildings are necessary, particularly one for arts and science, according to President Murray, who addressed a gathering of over 300 students at the Arts and Science dinner.

W. N. U. 1808

Madame Curie Visits America

Came To Attend Celebration Held In Detroit For Edison

New York.—Timidly gazing about her in wonderment, a little old lady in black came slowly down the gangplank from the liner "De France" here.

The bustling, chattering crowd on the pier fell silent as her frail figure appeared on the deck above them.

"It's Madame Curie," the whisper went around.

Her steps carefully guided by Ambassador Charles G. Dawes, who had arrived on the "De France," and by Owen D. Young, who had come down to meet her, Mme. Marie Sklodowska Curie, co-discoverer of radium, set foot on the second time on American soil.

She came to honor her fellow-scientist, Thomas A. Edison, and attended a dinner given in celebration of the 50th anniversary of his invention of the incandescent light, in Detroit.

Mme. Curie will be the guest of President and Mrs. Hoover, at the White House, October 29 and 30, and will receive while there a cheque for \$50,000 raised in this country for the purchase of a gram of radium which she will present to the Radium Institute at Warsaw, Poland, her native city.

"Journey's End"

British Dramatic Presentation Will Pique Tastes For Western Audiences

Regina.—A rare thing in the theatre is a play that appeals to English and American audiences alike. An even rarer thing is a play that will run simultaneously and successfully in both London, England, and New York. "Journey's End," which comes to the Grand Theatre, Regina, for three nights, beginning Monday, October 28th, has not only done both of these things, but for nearly a year it has been the foremost and undisputed hit in both theatrical capitals.

"Journey's End" is a quiet, restrained study of men in war. The cast is composed entirely of men, and the scene is laid in front line dugout before St. Quentin. We see a small group of British officers waiting for the great German attack that they know is bound to come, and we see their various reactions in the face of the common danger. That is all. Yet in this simple, undorned fragment of front-line life, playwright, Sherif, has managed to pack more human interest, excitement, humor, heroism, and tragedy than one would get in an entire season of ordinary plays.

Ottawa Welcomes Canoeists

Young Montrealers Making Unique Trip From Vancouver To Halifax

Ottawa, Ont.—Richard Leese and Paul Tremblay, of Montreal, transcontinental canoeists, were welcomed to the capital by Mayor Arthur Ellis. Later a civic automobile was placed at the disposal of the intrepid paddlers and the two intrepid Mayor Lambert of Hull, Quebec.

The unique trip by which the young Montrealers have travelled from Vancouver, and plan to reach Halifax, N.S., some time next month, was temporarily halted here while Leese travelled by train to Montreal because of the serious illness of his sister.

Itinerary Made Public

Premier King Will Speak In Eight Western Cities

Ottawa.—The itinerary of Premier Mackenzie King's western tour made public. The prime minister will speak at Winnipeg, Saskatoon, Prince Albert, Edmonton, Prince Rupert, Vancouver, Calgary and Regina.

Hon. J. L. Ralston, Minister of National Defence, making a tour of inspection of the West at the same time and will therefore accompany Mr. King for most of the tour. Senator Andrew Haydon, of Ottawa, will also accompany the prime minister.

West Buys Eastern Potatoes

St. John, N.B.—Shipments of potatoes from Carleton and Victoria counties, in New Brunswick, are being made to Western Canada, particularly the prairie provinces. The recent ruling of the railways, giving the privilege of bagging the tubers while in transit, is helping the situation and shippers claim the whole New Brunswick crop will find good markets.

Famous Library Restored

Louvre Library Richer In Some Respects Than Before War

Brussels.—When the Louvre Library was destroyed by fire, in August, 1914, during the German occupation, it contained some 350,000 volumes, including 15,000 incunabula and several hundred manuscripts from the twelfth and thirteenth centuries, valued at more than a million dollars. Today, it has been completely restored, and in some respects, is richer than before.

By virtue of the Versailles Treaty, the Germans promised to restore the library's contents, and since the armistice they have restored a total of 300,000 volumes, inclusive of 600 incunabula and 300 manuscripts, including one of the eleventh century.

Movie Actor Killed

Chicago.—Judy Cimino, 23, New York dare devil, fell to his death while sliding down a rope from the 44th floor of the new Civic Opera building, and in his fall injured several spectators, one of them fatally. Cimino was performing for moving picture cameras.

ASK FOR FREIGHT RATE EQUALITY FOR THE WEST

Ottawa.—Complete equalization with the rates to the head of the lakes was demanded by representatives of the British Columbia and Alberta governments in an appeal to the Dominion cabinet against the general order of the Board of Railway Commissioners on the subject. Leon J. Leader, M.P., counsel for British Columbia, and S. B. Woods, K.C., counsel for Alberta, submitted that there should be no higher percentage in the rate basis over the mountains than in the rate basis in any other part of Canada.

Counsel for Manitoba and Ontario, the Winnipeg Board of Trade and the City of Winnipeg, as well as counsel for the two railway companies, have given notice of their intention to oppose the appeal.

The millers of Canada are represented by counsel, but so far their attitude has not been disclosed. They probably will support the appeal. A majority of counsel and the cabinet were agreed that the provincial governments' appeal signed by the governments of British Columbia, Alberta and Saskatchewan, would be postponed after a protest from other parties interested that sufficient notice had not been given.

After the United Farmers' appeal had been presented it was decided that if any lawyers wanted to go on with the portion of the second appeal, which coincides with the first, there would be no objection. A motion put by the Hon. A. B. Hudson, for the Manitoba Government, that the question of the mountain differential should not be discussed at this time, was disallowed.

The result has been a prolonged discussion on the merits of the British Columbia case and the validity of the separate and conflicting decisions rendered by the board of Railway Commissioners on the mountain differential.

WITH MACALPINE PARTY

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on his second trip across the barren lands. On his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Richard Pearce, editor of Northern Miner, the best known mining editor in Canada, who was accompanying the MacAlpine party on his second trip across the barren lands. On his previous trip he was with "Punch" Dickens, who by his meritorious feat won the McKee trophy.

Arranges Atlantic Flight

Major Kingsford-Smith Plans London-New York Trip Next Summer

Vancouver.—Major Charles Kingsford-Smith has pretty well completed arrangements for a non-stop flight across the Atlantic from London to New York next May or June, he said, following his arrival in the city in which he spent several years of his school days.

"I have one more ocean to cross," he said as he referred to the 70,000 miles his plane, the Southern Cross, has flown since he made his trans-Pacific flight early last year. "We left the Southern Cross in the Fokker factory, in Holland, for an overhaul," he said. "She will be practically rebuilt, but the old engines, which have crossed the Pacific and Indian oceans and have been around Australia on many trips, will be in the Southern Cross when we start west across the Atlantic."

Urge B.C.-Alberta Highway

B.C. Good Roads League Endorsed Resolution To Government

Harrison Hot Springs, B.C.—A resolution asking the provincial government to complete an inter-provincial highway as quickly as possible was adopted by the B.C. Good Roads League of British Columbia here. No suggestion was made as to whether the Big Bend route or the Kamloops-Jasper link should be used.

The convention endorsed a recommendation favoring renewal of federal aid for highway construction. J. J. Johnston, of New Westminster was elected president for the ninth time.

Ask More Pay For Civil Service

Ottawa.—Creation of a minimum annual salary increase of \$120 for Federal Government Departmental workers, was requested by President V. O. Phelan, of the Civil Service Federation of Canada, when he appeared recently before the civil service commission. A complete and careful consideration of the request was promised by the commission.

Women Work Wires

Women make excellent telegraph operators, according to Mr. J. McMillan, general manager of the extensive Canadian Pacific Railway telegraphs. The advent of automatic sending and receiving instruments and other appliances eliminated much of the heavier work formerly done by men, and in addition to vastly speeding the service, gave an opportunity for efficient types to become operators as the automatic machines have a keyboard like that of a typewriter, and a knowledge of telegraph code is not required. Roughly forty per cent. of the operators in the employ of the C.P.R. telegraphs are women, about twenty-six per cent. working on Morse shifts, and forty-two on the automatic machines. The photograph shows two girls operating one of the battery of sending machines. Inset is Mr. McMillan, who controls 160,357 miles of wires.

Presented With Home

Samuel Lacombe, Famous Wheat Grower, Is Recipient Of Gifts From Admiring

Birtle, Man.—Samuel Lacombe, aged pioneer agriculturist of the western plains, whose discoveries of rust resistant grains have made him internationally known, tonight sleeps in a new house, located amid the rolling and fertile fields overlooking the picturesque Bird Tail Valley.

Today, surrounded by hundreds of friends, by the Lieutenant-Governor of Manitoba, Hon. James D. McGregor, and representatives of the provincial government, the house was presented to Mr. Lacombe, a tribute to his work which has greatly enriched Canadian agriculturists. Recently the Lacombe home was destroyed by fire.

Friends throughout Canada contributed funds for the construction of the modern home.

Powers Accept Invitation

Will Attend Naval Conference In London In January

London, England.—The British Government has received official replies accepting its invitations in every instance to a five-power naval conference here in January and also expressions of willingness to participate in proposed preliminary discussions of the problems of limitations. The texts of both the Italian and French replies have been published. Italy expressed the desire to collaborate in any step calculated to eliminate the dangers of excessive armaments and said its view on the subject was too well known to require restatement.

The text of the Japanese acceptance had also been received, but has not been made public as yet.

ALMOST ALL OF THIS YEAR'S CROP IS OF HIGH GRADE

Saskatoon, Sask.—This year more than 90 per cent. of the wheat falls within the statutory grades. Protein content averages 14 per cent., and in some cases has run as high as 19 per cent. Each year since the Canadian Grain Act was passed "commercial grade" wheat has been scarce. This year the same was damaged. This year no such grades could be fixed, because there was too little of such grain to make a fair sample. This year is the first time such a thing has happened.

These were some of the statements made by Dean W. J. Rutherford, of the University of Saskatchewan, during discussion following the statistics to the monthly meeting of the local branch of Canadian Society of Technical Agriculturists at the University, on the subject of "The Grading of Grain."

The Canadian system of grain grading, though not perfect, was, in the opinion of all the chief wheat buying countries the best system in the world, the dean implied in his address. Canada's chief competitors, Australia and Argentina, were taking steps to imitate the western system. The American system was encumbered with too much detail, he explained.

Dean Rutherford believed that eventually the system of sampling from cars in the railway yards would give way to the practice of basing the grade on the unload sample at the head of the lakes or at Vancouver. More than 50 per cent. of the cars, he pointed out, were too full for sampling. Both railways and elevators encouraged overloading, he said, as they found it economical. In cars so loaded samples could not be taken with a probe.

On the other hand automatic sampling devices had been developed, taking a continuous series of samples during the unloading, which gave an absolutely reliable sample. This sample was kept for a sufficient length of time to allow for inspection.

He stressed the point that the statutory grades should be kept uniform from year to year. Occasionally concessions had been made to gain some temporary advantage, and these had resulted in a loss of confidence in the Canadian grading by overseas buyers and a loss in the long run to the Canadian producer.

New machinery, Dean Rutherford said, had led to some changes. Separation of weeds and foreign varieties of grain could now be made. Wheat was now a commercial commodity and was sold in the East Indies, where they were fed to mules. The pool, he said, made more than 40 cents a bushel out of wild oats last year.

RESTRICTIONS ARE PLACED ON GRAIN LOADING

Winnipeg.—Restrictions had been placed against loading grain for government bins on both the Canadian Pacific and the Canadian National Railways, but the prairie and lake-head storage stations remained virtually unchanged: Prairie elevators held an added million bushels of grain and due to heavy boat shipments lake-head storage dropped almost perceptibly.

A new order will restrict loadings for the government elevator at Edmonton, which now holds 1,038,000 bushels in relation to its capacity of 2,500,000 bushels. It is stated by Canadian National Railway officials that sufficient grain is in transit to ensure the bins being filled close to capacity. Orders are already in effect against loading for government elevators at Moose Jaw, Calgary, and Saskatoon; the Moose Jaw and Calgary bins are at capacity now.

Total storage in government elevators showed an advance of almost a quarter-million bushels to 9,397,000 bushels, about two and a half million from capacity combined. However, storage at all country elevators showed a decline. The reason for worry with the aggregate at 85,034,000 bushels—not even half of their capacity aggregate.

Unrestricted loading and marketing as a result of the conclusion of the two-year car rationing system was reflected in increased figures. Loadings jumped from 974 to 1,517 cars, and marketings from 2,397,000 to 2,644,000 bushels. Unloadings and arrivals of grain cars at the lake-head were virtually halved and cars awaiting unloadings were reported increased by only five cars to 4,029 cars. Storage in bins at Port Arthur and Fort William edged down a mere 21,000 bushels to 72,611,000 bushels, when seven boats carried out 1,610,000 bushels the largest days' aggregate for some time.

Viewed Dirigible From Air

Prince Of Wales and Prince George Used Airplanes

London, England.—The Prince of Wales and his brother, Prince George, it became known, went in aeroplanes appropriated for their use to meet the dirigible R-101 making its trial voyage.

Both took off shortly after noon from Sunningdale, Berkshire, and toured the home counties in search of the dirigible. They finally found it after circling it and viewing it from the air, both returned to Northolt, Middlesex.

Bandits Torture Farmer

Hung By His Thumbs and Threatened To Be Burned Alive

Lethbridge.—A strange story comes from the border where, about 10 miles from Coquit-Sweet Grass, Steve Christie, farmer, was hung by his thumbs, threatened to be burned alive with distillate and robbed of \$200 by two unknown bandits.

The story has been authenticated by the Lethbridge Police, who believe that one of the bandits is the man who held up Fred Richardson at the C.P.R. station here and robbed him of \$32, as the holdup at Sweet Grass took place the morning after.

Labor Wins In Australia

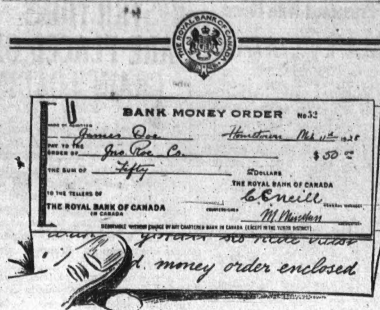

Melbourne, Australia.—The assumed defeat of Prime Minister Stanley Bruce in his own constituency of Flinders changes the standing of parties following the Australian general election. The forecast of the new house of representatives is: Labor party, 45; Nationalists, 15; Country party, 10; Independent-Nationalists, 3; Independent, 1, and Country-Progressive, 1.

Prince Will Represent King

London, England.—For the first time since the erection of the cenotaph commemorating Britain's war heroes in Whitehall, King George will be absent from the Armistice Day Service, November 11, this year. It was announced that the Prince of Wales would represent the King and lay a wreath on the cenotaph for him.

Men Accept Invitation

London, England.—So far 150 holders of the Victoria Cross have accepted the invitation to a dinner in the parliament buildings two nights before Armistice Day, at which the Prince of Wales will be present. Many pathetic cases of poverty among these heroes have been discovered.

Local and General Items

Max Belecky has taken over the lease of the Kings hotel at Fernie.

Great Britain owns half of the ocean-going ships of the world.

A single factory in North Carolina turns out 60,000,000 cigarettes a day.

A perfect mother doesn't let her cigarette ashes get into the baby's eyes.

Mr. K. G. Craig, barrister, has moved his office to his residence for the winter months.

Nothing else is so disastrous to a golf score as the presence of a second person who can count.

The local fire-fighting equipment received a thorough overhauling the early part of the week.

Mr. K. G. Craig has been a business visitor to Okotoks and Turner Valley during the week.

Macleod Elks have leased the Hudson Bay hall for a period of years for dance and lodge purposes.

A gentleman is always polite enough to get off and give a lady his seat on the water wagon.

Some motorists just back from long tours saw highways that were the best they ever detoured around.

Mrs. Elizabeth Grant, mother of Rev. W. M. Grant, of Calgary, died at Halifax, Nova Scotia, on October 4th.

Jim McCool was down from Crow's Nest on a visit to old friends on Tuesday. Jim is looking quite well and happy.

New hose and other equipment have been added to Blairmore's fire-fighting apparatus, at a cost of around \$700.

We would judge that the most convenient height for a kitchen table surface is eight inches below the worker's elbow.

Bear in mind the big bazaar to be staged here on Saturday, November 9th, by the Ladies' Guild of St. Luke's church.

Pompey, the Roman, had water clocks installed in the courts for the benefit of the lawyers—to stop their babbling. This was two thousand years ago.

Mr. and Mrs. Robt. Creighton, and Peggy, of Hillcrest, paid a visit to their old friend Robt. Strachan at Fernie on Sunday last, returning the same day.

Examinations for Miners Certificates will be held on Friday of this week (Oct. 25th.) in the Washhouse of International mine, Coleman, commencing at 9 a.m. by The West Crows' Nest Examining Board.

Lieut. Meakings, who for the past sixteen months has been connected with Salvation Army work in this district, with headquarters at Coleman, is fawelling this week. He has not yet been apprised of his new field.

The following advertisement recently appeared in an Alberta paper: "Young lady operator-printer at liberty. Feed presses; set jobs. Good speed and clean proofs on machine. Reason for change: editor's son home from college."

At the annual meeting of Masonic District No. 8, held at Pincher Creek on Friday last, Mr. R. W. H. Pinkney, of Blairmore, was elected as district deputy grand master and Blairmore was chosen as the place for next year's meeting.

Fire destroyed three residences on the main street of Elko on Tuesday morning.

Many a man in love with a dimple makes the mistake of marrying the whole girl.

Manufacturing in Canada has increased 700 per cent in the past thirty years.

Miss Fanny Fabro was a visitor with her brother Alphonse at Kimberley last week.

Every time a man's wife looks happy, he flatters himself that he is the cause of it.

The local lodge of Pythian Sisters will hold their annual bazaar on Wednesday, November 20.

The members of the local lodge of Women of Mooseheart Legion will hold a social evening in the Moose Hall tonight, commencing at 8 o'clock. All members, as well as brother Moose, are invited to be present.

Two Stately girls won equal standing in the competition for governor-general medals in connection with the public school leaving examinations in the High River inspectorate, and are possessors of bronze medals from His Excellency Viscount Willingdon.

The members of the local lodge of Pythian Sisters will hold a Halloween-whist drive and dance in the Lodge Hall on the night of Wednesday, October 30. Admission 50 cents. Keep this date open and lock forward to a real good time.

MR. MELVILLE ANDERSON, of Anderson & McLean, eyesight specialists, of Calgary, will be at the Bellevue Hospital on Tuesday, October 29th, and at the Greenhill Hotel, Blairmore, on Wednesday, the 30th. Twenty years experience in Calgary and regular monthly visits assure satisfaction.

BAZAAR—The Ladies' Aid of the Bellevue United church will be holding their Annual Bazaar on November 9th in the church. There will be a great display of fancy work, plain sewing, candy, home cooking, grab boxes, etc. Prices to meet the pockets of everyone, so come along and bring your friends.

Considerable of the chalk intended to be used on the blackboards of the local schools is appearing as an eyesore to the public on the walls of the postoffice. There should be some way of locating the individuals responsible for marking up any private or public premises and meting out the necessary punishment.

The Ottawa Journal says: "Growth of revenue from the income tax is the very best evidence of prosperity. In the months of April to August, 1928, it was \$51,000,000, while for the same period this year it was \$60,292,000. This is probably partly due to more efficient methods of collection, but it is also largely due to there being money in the country."

It is reported that the Canadian National Railways are adding an additional nine holes to the golf course at Jasper. The new extension is to be in the direction of the site where the Brewster barns are located. When completed the Jasper golf course will be the largest located in any Rocky Mountain resort and the most up-to-date and best equipped in Canada.
